Quarterly Investment Report

Our Mission

*Inspiring giving and connecting donors to Catholic ministries, sustaining the local Church for generations.*

Our Investment Philosophy

The Roman Catholic Foundation of Eastern Missouri offers world-class, Catholic-screened investment options to help donors achieve their charitable goals and to help Parishes, Schools, and Ministries of the Archdiocese of St. Louis meet their long-term financial needs. We believe in responsible stewardship and seek a competitive financial return in a manner consistent with social teachings of the Catholic Church. We invest in a well-diversified mix of risk-appropriate assets to achieve a rate of return that will support the Foundation’s distribution rate schedule while protecting assets from inflation and market volatility. All investments are screened in accordance with the Socially Responsible Investment Guidelines set forth by the United States Conference of Catholic Bishops.

Market Commentary

In 2022, persistent global inflationary pressures and coordinated central bank rate hikes led equities to decline to bear market lows and fixed income to experience the sharpest losses in decades. This was the first time in modern history where both US stocks and long-term bonds declined by double digits in a year. The traditional 60% stock/40% bond portfolio lost -16.1% in 2022, the worst return in more than 50 years. Meanwhile, as interest rates rose following the FOMC rate-hiking campaign, which was structured to lessen the highest level of inflation in 40 years, US investment grade fixed income posted a decline of -13.0% for 2022, the weakest annual total return for this index since its 1976 inception.

Inflation remained elevated even as the US Headline CPI inflation cooled to 7.1% year-over-year in November, a decline from the June peak of 9.1%. Since the inflation rate remained well above the FOMC’s target of 2%, the Committee raised interest rates 1.25% during 4Q. This brought the total amount of the FOMC’s rate increase to 4.25%. The FOMC does not anticipate inflation will come down quickly due to the strength of the labor market and notes that additional hikes are possible.
