

Roman Catholic Foundation of EASTERN MISSOURI

Quarterly Investment Report

Our Mission

*Inspiring giving and connecting donors to Catholic ministries,
sustaining the local Church for generations.*

Our Investment Philosophy

The Roman Catholic Foundation of Eastern Missouri offers world-class, Catholic-screened investment options to help donors achieve their charitable goals and to help Parishes, Schools, and Ministries of the Archdiocese of St. Louis meet their long-term financial needs.

We believe in responsible stewardship and seek a competitive financial return in a manner consistent with social teachings of the Catholic Church.

We invest in a well-diversified mix of risk-appropriate assets to achieve a rate of return that will support the Foundation's distribution rate schedule while protecting assets from inflation and market volatility. All investments are screened in accordance with the Socially Responsible Investment Guidelines set forth by the United States Conference of Catholic Bishops.

Market Commentary

The first quarter of 2025 brought negative total returns of 4.4% for the S&P 500, while 7 of its 11 sectors posted gains quarter-over-quarter. The Magnificent Seven collectively fell into bear market territory in the first quarter, dragging down the S&P 500. Over the same time frame, the Russell 2000 Index declined 9.5%, while the Bloomberg US Agg increased by 2.8%. The yield on the 10-year US Treasury note closed the first quarter at 4.21%, while the yield on 3-month Treasury bills was 4.29%.

The Federal Reserve opted to keep the federal funds rate unchanged in its January and March FOMC meetings. Fears over potentially reinflationary trade policies and relatively healthy labor market data have kept the Fed hawkish. Throughout the first quarter, the US dollar decreased by about 3.9%. The March payroll report came in stronger than expected, with 228,000 jobs added in the month vs. economists' consensus of 140,000.

Inflation data was generally higher throughout the first quarter, reaching 2.8% in February, dampening the likelihood of multiple Federal Reserve rate cuts in 2025. The Fed continues to weigh its dual mandate of keeping inflation low and maintaining strength in the job market while being sure to not overheat the economy by cutting rates too rapidly.
