

Roman Catholic Foundation of EASTERN MISSOURI

Quarterly Investment Report

Our Mission

Inspiring giving and connecting donors to Catholic ministries, sustaining the local Church for generations.

Our Investment Philosophy

The Roman Catholic Foundation of Eastern Missouri offers world-class, Catholic-screened investment options to help donors achieve their charitable goals and to help Parishes, Schools, and Ministries of the Archdiocese of St. Louis meet their long-term financial needs.

We believe in responsible stewardship and seek a competitive financial return in a manner consistent with social teachings of the Catholic Church.

We invest in a well-diversified mix of risk-appropriate assets to achieve a rate of return that will support the Foundation's distribution rate schedule while protecting assets from inflation and market volatility. All investments are screened in accordance with the Socially Responsible Investment Guidelines set forth by the United States Conference of Catholic Bishops.

Market Commentary

The second quarter of 2025 brought positive total returns of 10.9% for the S&P 500, while eight of its 11 sectors posted gains quarter-over-quarter. US equities recovered from Liberation Day losses, with the S&P 500 reaching new all-time highs amid the de-escalation of global tensions, hard data resilience, and expectations for easing monetary policy. The Federal Reserve opted to keep the federal funds rate unchanged in its May and June FOMC meetings. The FOMC maintained a wait-and-see stance, as potentially inflationary trade and fiscal policies could offset cooling inflation data. Throughout the first quarter, the US dollar decreased by about 7.0% and gold prices increased about 5.7%, following a nearly 20% rally last quarter.

Inflation data was moderately lower throughout the second quarter, measuring at 2.4% in May, likely preserving the low likelihood of multiple Federal Reserve rate cuts in 2025. The Fed continues to weigh its dual mandate of keeping inflation low and maintaining strength in the job market while being sure to not overheat the economy by cutting rates too rapidly. MS & Co.'s Economics team believes there will now be no rate cuts in 2025, with cuts resuming in March 2026.
